

Senior Phone & Locator

Introducing the **Senior Phone & Locator™**, a high quality mobile phone and GPS locator with cutting edge GPS technology. The same technology used by law-enforcement. This mobile phone was specifically designed for senior citizens, works like a regular mobile phone but its large keypad makes dialing easy. This mobile phone comes with a large red SOS button on the back, and when pressed it dials a predefined telephone number, and an alarm will sound attracting attention. You can also send a text message to the phone and it will reply with a Google link, just click on the link and you'll know the location. Just insert a SIM card and the phone is ready for use.

Suitable Applications:

- » **Senior Citizens**
- » **At Risk Individuals**
- » **Alzheimer's/Dementia Sufferers**
